Victory Joseph Conrad 2004 'Victory, don't forget, has come out of my innermost self.' Victory was the last of Conrad's novels to be set in the Malay Archipelago. Sub-titled 'An Island Tale', it tells the story of Axel Heyst who, damaged by his dead father's nihilistic philosophy, has retreated from the world of commerce and colonial exploration to live alone on the island of Samburan. But Heyst's solitary existence ends when he rescues an English girl from her rapacious patron and takes her off to his retreat. She in turn recalls him to love and life, until the world breaks in on them once more with tragic consequences. In this love story Conrad created two of his psychologically most complex and compelling characters in a narrative of great erotic power. This new edition uses the English first edition text and has a new chronology and bibliography.

Typeset in the Future Dave Addey 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In Typeset in the Future, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL-E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). Typeset in the Future is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

Almayer's Folly Joseph Conrad 1994-08-18 Set in eastern Borneo during the 1880s, Almayer's Folly recreates the conflicts of imperial Europe with the colonised East Indies through Joseph Conrad's story of Kaspar Almayer's personal tragedy: his loss of both his daughter of mixed race to her native lover and his dream of finding enough gold to return to Amsterdam in triumph. The introduction gives the history of the composition over almost five years as Conrad went to the Congo, Australia, the Ukraine, Belgium, Switzerland, and France as a seaman and on holiday. The novel has suffered seven layers of unauthorised intervention by typists and publishers, as set out in the essay on the text and the apparatus. The notes explain Malay terms and historical references, and there are two regional maps. This is the text of Almayer's Folly, established through modern textual scholarship, as Conrad would have like it to have appeared in 1895.

The Secret Agent Christopher Hampton 1996 This volume contains both screenplays based on the novels of the same name by Joseph Conrad.

Conrad: Nostromo Ian Watt 1988-04-28 Conrad's great novel is a rich study not only of a typical South American country, but of the politics of any underdeveloped country, and for this reason it is permanently topical. Ian Watt addresses Conrad's concerns when writing the work, and provides an accessible introduction, taking account of background, history and politics, and reception and influence.

Space, Conrad, and Modernity Con Coroneos 2002 Recent literary and cultural criticism has taken a spatial turn. Nowadays, to speak is to speak from, to, or in; to know something is to have 'mapped' its discursive operation. This book locates this development within the opposition between a space of things and a space of words, tracing various aspects of its emergence from the geopolitical idea of 'closed space' which developed in the early twentieth century to the influence of Saussurean linguistics in contemporary criticism and theory. The focus of the study is the work of Joseph Conrad, in whom the opposition between a space of words and a space of things is strikingly figured. Part I deals with several versions of

closed space, using an ancient spatial paradox of God (as the sphere of which the centre is everywhere and the circumference is nowhere) to raise questions about the relations between geography, language, and interpretation. Part II deals with the agitation around finitude and the limit, and the desperate attempt to discover in the resources of language a means of liberation. Through these ideas the book explores some of the more disreputable, marginal, or unglimped elements in modernism - including the rise of spy fiction, anarchist geography, the spiritualist movement, the invention of artificial languages, the history of laughter, and solar energy. Among the figures drawn into dialogue with Conrad are John Buchan, Woolf, Joyce, Peter Kropotkin, Rene de Saussure (brother of the famous Ferdinand), Henri Bergson, the filmmakers George Melies and Carol Reed and, in particular, Michel Foucault -- this 'nouvelle cartographe' as Gilles Deleuze described him -- whose anxious negotiation with spatial ideas touches the book's deepest understanding.

Joseph Conrad and the Fiction of Autobiography Edward W. Said 2008-01-08 Edward W. Said locates Joseph Conrad's fear of personal disintegration in his constant re-narration of the past. Using the author's personal letters as a guide to understanding his fiction, Said draws an important parallel between Conrad's view of his own life and the manner and form of his stories. The critic also argues that the author, who set his fiction in exotic locations like East Asia and Africa, projects political dimensions in his work that mirror a colonialist preoccupation with "civilizing" native peoples. Said then suggests that this dimension should be considered when reading all of Western literature. First published in 1966, Said's critique of the Western self's struggle with modernity signaled the beginnings of his groundbreaking work, *Orientalism*, and remains a cornerstone of postcolonial studies today.

*Heart of Darkness and Other Tales* Joseph Conrad 1990 Set in an atmosphere of mystery and menace, Joseph Conrad's *Heart of Darkness* tells the story of Marlow's journey up the Congo River to meet the remarkable Mr. Kurtz. It reveals Conrad at the height of his powers as a writer of great vividness, intensity, and sophistication. *An Outpost of Progress* is also set in central Africa and offers a fiercely sardonic view of European imperialism. *Karain*, with its Malaysian setting, questions conventional ideas of the contrasts between races. *Youth* is a largely autobiographical account of an ill-fated voyage in which Marlow makes his first appearance. The four tales variously appraise the glamour, folly and rapacity of imperial adventure. Intro. and Notes by Cedric Watts. Biblio. Chronology. Glossary.

Rereading Conrad Daniel R. Schwarz 2001 Leading Conradian scholar Daniel R. Schwarz assembles his work from over the past two decades into one crucial volume, providing a significant reexamination of a seminal figure who continues to be a major focus in the twenty-first century. Schwarz touches on virtually all of Joseph Conrad's work including his masterworks and the later, relatively neglected fiction. In his introduction and in the persuasive and insightful essays that follow, Schwarz explores how the study of Conrad has changed and why Conrad is such a focus of interest in terms of gender, postcolonial, and cultural studies. He also demonstrates how Conrad helps define the modernist cultural tradition. Exploring such essential works as *Heart of Darkness*, *Lord Jim*, *Nostromo*, and "The Secret Sharer," Schwarz addresses issues raised by recent theory, discussing the ways in which contemporary readers, including, of course, himself, have come to read Conrad differently. He does so without abandoning crucial Conradian themes such as the disjunction between interior and articulated motives and the discrepancies between dimly acknowledged needs, obsessions, and compulsions and actual behavior. Schwarz also touches on the extent to which Conrad's conservative desires for a few simple moral and political ideas were often at odds with his profound skepticism. A powerful close reader of Conrad's complex texts, Schwarz stresses how from their opening paragraphs Conrad's works establish a grammar of psychological, political, and moral cause and effect. *Rereading Conrad* sheds new light on an author who has spoken to readers for over a century. Schwarz's essays take account of recent developments in theory and cultural studies, including postcolonial, feminist, gay, and ecological perspectives, and show how reading Conrad has changed in the face of the theoretical explosion that has occurred over the past two decades. Because for over three decades Schwarz has been an important figure in defining how we read Conrad and in studying modernism, including how we respond to the relationship between modern literature and modern art, scholars, teachers, and students will take great pleasure in this new collection of his work.

*The Cave and the Mountain* Wilfred Stone 1966 A personal and literary biography of Forster, the author who searched for ways to join poetry and the matter-of-fact.

Culture and Irony Anthony Winner 1988 Conrad's major novels--*Lord Jim*, *Nostromo*, *The Secret Agent*, and *Under Western Eyes*--tell of illusions and betrayals, dreams and lies. Ambiguity, contradiction, and irony so dominate the narratives that the more closely one reads, the more difficult it becomes to know what is real or what is true. While Conrad's impressionism teaches one to see, his irony casts doubt on the meaning of what one has seen. Facts have little value, yet beliefs are futile or hollow because they ignore facts. Irony turns every certainty into uncertainty. Even the cultural values upon which the irony seems to rest are often mocked. This perplexity, which is the binding force of Conrad's art, is thoroughly

examined in Culture and Irony.

Product-Focused Software Process Improvement Andreas Jedlitschka 2008-06-17 On behalf of the PROFES Organizing Committee, we are proud to present to you the proceedings of the 9th International Conference on Product-Focused Software Process Improvement (PROFES 2008) held in Frascati - Monteporzio Catone, Rome, Italy. Since 1999, PROFES has established itself as one of the recognized international process improvement conferences. The main theme of PROFES is professional software process improvement (SPI) motivated by product and service quality needs. Focussing on a product to be developed, PROFES 2008 addressed both quality engineering and management topics including processes, methods, techniques, tools, organizations, and enabling SPI. Both solutions found in practice and the relevant research results from academia were presented. Domains such as the automotive and mobile applications industry are growing rapidly, resulting in a strong need for professional development and improvement. Nowadays, the majority of embedded software is developed in collaboration, and distribution of embedded software development continues to increase. Thus, PROFES 2008 addressed different development modes, roles in the value chain, stakeholders' viewpoints, collaborative development, as well as economic and quality aspects. Mobile development was included again as one of the themes. Since the beginning of the series of PROFES conferences, the purpose has been to bring to light the most recent findings and novel results in the area of process improvement, and to stimulate discussion among researchers, experienced professionals, and technology providers from around the world.

The Secret Agent Joseph Conrad 2004-12-14 Selected by the Modern Library as one of the 100 best novels of all time Edited and with Notes by Peter Lancelot Mallios Introduction by Robert D. Kaplan In reexamining The Secret Agent in a post-9/11 world, Robert D. Kaplan praises Joseph Conrad's "surgical insight into the mechanics of terrorism," calling the book "a fine example of how a savvy novelist may detect the future long before a social scientist does." This intense 1907 thriller—a precursor to works by Graham Greene and John le Carré—concerns a British double agent who infiltrates a cabal of anarchists. Conrad explores political and criminal intrigue in a modern society, building to a climax that the critic F. R. Leavis deemed "one of the most astonishing triumphs of genius in fiction."
