NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Acute Care of At-Risk Newborns Jill E. Boulton 2021-01-21 "ACoRN (short for Acute Care of at-Risk Newborns) was developed by an expert group of Canadian neonatal care providers and educators. Since launching in 2005, ACoRN has been taught across Canada and internationally, in formats varying from 1- to 3-day local, regional, or provincial/territorial workshops to module-based learning over a period of weeks. As with many education programs, ACoRN has evolved from didactic sessions and tabletop simulations to the hands-on, simulation-based workshops utilized today. Updates to the first edition of the text were published in 2010 and 2012 to add new content (on therapeutic hypothermia, for example)"--

Workbook in Practical Neonatology Richard Alan Polin 2001-01-01 The workbook is a mixture of anatomy, physiology, pathology, pharmacology, radiology, and research. It is full of information for those who take care of neonates. The New England Journal of Medicine gave the book a favorable review. It is completely revised to incorporate advances in neonatal care. The 3rd Edition presents an interactive approach to neonatal evaluation and management of the most common problems in infants. Each chapter features case histories that require the reader to make diagnostic decisions and to explain scientific concepts as they apply to each clinical problem.
