Tourism and Development in Sub-Saharan Africa Marina Novelli 2015-09-16 Over the past 20 years, the perception of tourism as an effective contributor to socio-economic development in the developing world has propagated, with many viewing tourism as a provider for poverty alleviation and towards other UN Millennium Development Goals. Over the same period, readers have become familiar with the paradoxes, complexities and inequalities of tourism in relation to development, wealth creation, growth, redistribution, governance and 'hosts-guests' relationships. This volume further extends this critical debate with a much-needed cohesive publication on Sub-Saharan Africa (SSA). In an era of fluctuating tourist arrivals at global level, the growth of tourism in SSA requires deeper consideration in terms of its inconsistent and questionable implications at local level. Taking as a central theme the debate on whether tourism should be used in development efforts, this book examines the way in which tourism has controversially become the way forward to development in several SSA locations and assesses bottlenecks to sustainable development as well as dilemmas and challenges faced by those SSA destinations seeking to achieve development through tourism. It offers an explicit set of chapters adopting a multi-disciplinary approach, drawing upon tourism studies, human geography, sociology, anthropology, political economy, development and environmental studies, and integrates case studies authored by local African practitioners and academics to produce a book that gave voice to local experts on local realities. Combining an overview of key theories, concepts, contemporary issues and debates as well as practical insights from a wide range of regions in SSA, this book will be a valuable resource for those investigating the role of tourism in development.

Off the Plan Caryl Bosman 2016-02-01 The Gold Coast is a well-known and loved destination for local and international tourists, a city of surf and sun, pleasure and leisure. However, it is also one of the fastest growing cities in Australia, occupying the largest urban footprint outside the state capitals. How did the Gold Coast come to be what it is today? Off the Plan is the first in-depth, multidisciplinary academic study on the urbanisation and development of the Gold Coast. It addresses the historical circumstances, both accidental and intentional, that led to the Gold

Coast's infamous transition from a collection of settlements unburdened by planning regulations or a city centre to become Australia's sixth largest city. With chapters on tourism, environment, media, architecture, governance and politics, planning, transportation, real estate development and demographics, *Off the Plan* demonstrates the importance that historical analysis has in understanding present-day planning problems and the value of the Gold Coast as a model for the rapidly evolving western city.

**China's Maritime Silk Road** Gerald Chan 2020-09-25 This innovative book examines the maritime component of China's Belt and Road Initiative (BRI), focusing on three key trade routes and addressing the question of how China protects its overseas assets. Gerald Chan explores China's rising maritime power, using geo-developmentalism as a theoretical framework to analyse the country's development of port facilities and infrastructure along important trade routes. Through developing these sea routes, he argues that a new global order is in the making.

**Air passenger duty Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee** 2011-07-08 Northern Ireland is unique because, as part of the UK, it has the highest rate of aviation duty in Europe but, unlike Great Britain, it shares a land border with another EU state which levies aviation duty at a minimal rate, and even that is soon to be abolished entirely. In short, why travel from Belfast International when one can take the short journey to Dublin and pay £60 per person less for their ticket? The Committee feels that, assuming that air passenger duty is not abolished for the whole of the UK, there is only one solution. That solution is to abolish APD on all flights departing Northern Ireland's airports and likewise abolish APD on direct flights into Northern Ireland from Great Britain. In that way, Northern Ireland's business, enterprise and tourist industry stands a chance of being able to compete with the Republic of Ireland

**Yearbook of the United Nations** 2011 United Nations Department of Public Information 2015-12-31 With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and institutional, administrative and budgetary matters, the Yearbook of the United Nations stands as the most authoritative reference work on the activities and concerns of the Organization. Fully indexed, the Yearbook includes the texts of all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, putting all of these in a narrative context of United Nations consideration, decision and action.

**Small States Commonwealth Secretariat** 2012-12-30 This unique annual collection of key economic and statistical data on states with fewer than 5 million inhabitants is an essential reference for economists, planners and policy-makers working on issues of concern to small states. This volume contains 68 tables covering development indicators and 4 articles focusing on the green economy.

**The Upside of Down** Charles Kenny 2014-01-07 America is in decline, and the rise of the East suggests a bleak future for the world's only superpower -- so goes the conventional wisdom. But what if the traditional measures of national status are no longer as important as they once were? What if America's well-being was assessed according to entirely different factors? In *The Upside of Down*, Charles Kenny argues that America's so-called decline is only relative to the newfound success of other countries. And there is tremendous upside to life in a wealthier world: Americans can benefit from better choices and cheaper prices offered by schools and hospitals in rising countries, and, without leaving home, avail themselves of the new inventions and products those countries will produce. The key to thriving in this world is to move past the jeremiads about America's deteriorating status and figure out how best to take advantage of its new role in a multipolar world. A refreshing antidote to prophecies of American decline, *The Upside of Down* offers a fresh and highly optimistic look at America's future in a wealthier world.

**Key Concepts in Hospitality Management** Roy C Wood 2013-02-01 "Accessibly written and thoughtfully edited, making it essential reading for those studying hospitality and embarking on a career in the industry." - Peter Lugosi, Oxford School of Hospitality Management "This text is a fascinating read... Roy Wood has spent 25 years teaching, researching and writing on the

hospitality industry - much of that learning is here in this book." - Erwin Losekoot, Auckland University of Technology "All different aspects of the hospitality industry are elaborated on... All in all a wonderful course book for for our students!" - Claudia Rothwangl, ITM College This book covers the major concepts students are likely to encounter throughout their study within the hospitality management, giving a comprehensive and up-to-date overview as well as providing engaging everyday examples from around the world. A leading figure in the field, Roy Wood has successfully gathered international contributors with direct experience of hospitality management and the hospitality industry as a whole, ensuring the academic, geographical and practical integrity of the book. Key Concepts in Hospitality Management is written for undergraduate students and those studying short postgraduate or executive education courses in hospitality management, events management, tourism management and leisure management.

Globalizing Central Asia Marlene Laruelle 2015-02-12 In this global era, Central Asia must be understood in both geo-economic and geopolitical terms. The region's natural resources compel the attention of rivalrous great powers and ambitious internal factions. The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty. Russia and China dominate the horizon, with other global players close behind; meanwhile, neighboring countries are fractious and unstable with real potential for contagion. This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption.

Tourism Imaginaries Noel B. Salazar 2014-06-01 It is hard to imagine tourism without the creative use of seductive, as well as restrictive, imaginaries about peoples and places. These socially shared assemblages are collaboratively produced and consumed by a diverse range of actors around the globe. As a nexus of social practices through which individuals and groups establish places and peoples as credible objects of tourism, "tourism imaginaries" have yet to be fully explored. Presenting innovative conceptual approaches, this volume advances ethnographic research methods and critical scholarship regarding tourism and the imaginaries that drive it. The various authors contribute methodologically as well as conceptually to anthropology's grasp of the images, forces, and encounters of the contemporary world.

The Routledge Handbook of Tourism Research Kaye Sung Chon 2012 The Routledge Handbook of Tourism Research is a compendium of some of the most relevant issues affecting tourism development today. The topics addressed in this book provide some new thinking for those involved in tourism research. This book takes the reader from the beginnings of tourism research to a discussion of emerging forms of tourism and selected examples of tourism development. The underlying theoretical dimensions are reviewed, analysed and discussed from a number of perspectives. This book brings together leading researchers, many of whom are members of the International Academy for the Study of Tourism, to discuss tourism today and its future. The works included in this volume are diverse, in terms of geographical context, research methodology, root discipline, and perspective. This book represents studies based in Europe, North America, Oceania, and Asia. Research methodologies include both quantitative and qualitative. Both macro and micro issues are discussed from the economic, psychological, sociological, political science, marketing, and other perspectives, which reflect the interdisciplinary nature of tourism studies. This book is divided into 6 sections. Section 1 considers the foundations for tourism research. Section 2 discusses the implications for destination management and section 3 discusses planning for tourism development. Section 4 covers human capital for tourism development. And finally, section 5 evaluates emerging forms of tourism and then section 6 offers insights into tourism evolution. It offers the reader a comprehensive synthesis of this field, conveying the latest thinking and research. The text will provide an invaluable resource for all those with an interest in tourism research. This is essential reading for students, researchers & academics of Tourism as well as those of related studies in particular Leisure, Hospitality & Development Studies.

Contemporary Sport Management, 5E Pedersen, Paul M. 2014-06-18 Contemporary Sport

Management, Fifth, provides students with an overview of sport management by presenting extensive discussions of the foundational aspects of the profession and current topics from the field. The fifth edition continues to engage students with a full-color format and an integrated web study guide. The text also discusses the role of social media in revolutionizing the industry and the significance of sport as an international institution. Tourism and Hospitality Development Between China and EU Guojun Zeng 2014-10-16 Tourism and hospitality industry is facing a substantial amount of opportunities and challenges due to the globalization. The Third International Conference on Tourism and Hospitality between China and Spain (ICTCHS) provides a unique global forum for academics, thought leaders and key industry practitioners from diverse backgrounds and interests to meet, discuss and debate critical issues that will affect the future direction of tourism and hospitality research and practice.

Tourism Research Paradigms Ana Maria Munar 2016-06-07 The theme of this book focuses on the being of tourism and knowledge construction in tourism. It discusses both ontological and epistemological issues in tourism studies. In addition to examining what constitutes tourism knowledge and how tourism knowledge is acquired, various theoretical and methodological paradigms will also be addressed.

Philosophies of Hospitality and Tourism Prokopis A. Christou 2020-11-05 This book introduces readers to philosophies of hospitality and tourism. It provides insights into classic philosophical concepts and explains how these can inform the actions of tourism stakeholders, practitioners, hosts and tourists. The volume explores four main areas: the nexus of philosophy with tourism and hospitality; the philosophy of giving in hospitality and tourism; the receiving-end, such as emotional tourist experiences, happiness and overtourism, including the notion of 'gluttony'; and philosophical issues related to tourism development, such as the spirit of places and thanatourism. The discussion of philanthropy within the context of tourism is a strength of the book and will be important in a post-Covid-19 tourism industry. The book will be of interest to students, researchers and practitioners in tourism and hospitality.

**Eye Tracking in Tourism** Mario Jooss 2020 Despite the ever-increasing interest in eye tracking, there is still no comprehensive work on the potential and applications of table-mounted and mobile head-mounted eye tracking solutions in travel and tourism. This volume bridges that gap, effectively linking eye tracking with travel and tourism. It presents, on the one hand, novel academic contributions on the concept of eye tracking, and on the other, practice-oriented case studies that illustrate the use and strategic value of eye tracking in travel and tourism. It provides concrete and novel insights into tourist behavior and the tourist consumer experience and, for the academic community, offers a comprehensive, scientifically based overview of the empirical, methodological, theoretical, and practical contributions of eye tracking research. Accordingly, the book will be of value to a diverse audience. It will be a useful resource for existing and future tourism businesses, allowing them to adopt proactive approaches in the design of tourism products. It will also stimulate further research in the field and inspire scholars and practitioners to combine their ideas and expertise, to look beyond supposedly fixed horizons, and to identify emerging opportunities.

**Sustainable Public Management** Neil M. Boyd 2021-09-10 Sustainable Public Management explores key issues in public sector sustainable management that span from Nation/State to local government. It highlights state-of-the-art articulations of public-private partnerships, public engagement, inter-organizational networks, sustainability policy, strategy, standard setting, and reporting. Sustainable management is an important topic across organizational forms in the private, not-for-profit, and public sectors because of the its practice is tied to some of the most pressing environmental and social problems that exist in the world. The public sector is especially important due to its scale and scope across the globe, the tangible impacts that public service delivery can make in resource efficiency and effectiveness, and in directly tackling critical sustainable development goals. This book will be of great value to scholars, students, and policymakers interested in Public Administration and Management, Sustainable Management and Development. The chapters in this book were originally published as a special issue of the Public Management Review.

**Tourism and Geographies of Inequality** Fabian Frenzel 2016-02-08 Slum tourism is a controversial pastime on the rise globally. This volume provides a collection of studies that shed light on the phenomenon from historical, geographical, sociological, political and anthropological perspectives. Based on unique and in depth research from across the globe, the collection forms an indispensable resource for Scholars and Students of tourism and the geographies of inequality. Connecting slum tourism to debates over the ethics and aesthetics of travel, volunteering, second homes and cross border mobilities, the case studies provide ample ground for an understanding of slum tourism as transversal terrain in which the questions of global equity came to the fore. This book was published as a special issue of Tourism Geographies.

**Profits of Doom** Antony Loewenstein 2014-08-01 Vulture capitalism has seen the corporation become more powerful than the state, and yet its work is often done by stealth, supported by political and media elites. The result is privatised wars and outsourced detention centres. Mining companies pillaging precious land in developing countries and struggling nations are invaded by NGOs and the corporate dollar. Best-selling journalist Antony Loewenstein travels to Afghanistan, Pakistan, Haiti, Papua New Guinea and across Australia to witness the reality of this largely hidden world of privatised detention centres, the cost of cheap clothing manufacturing and militarised private security. Who is involved and why? Can it be stopped? What are the alternatives in a globalised world? Profits of Doom challenges the fundamentals of our unsustainable way of life and the money-making imperatives driving it. Endorsements for Profits of

Doom: 'In Australia, so often bereft of voices of dissent and courage, Antony Loewenstein's tenacious work stands out. Profits of Doom is a journey into a world of mutated economics and corrupt politics that we ignore at our peril.' - John Pilger, independent investigative journalist, author and documentary film-maker 'A great exercise in joining the dots, on essential terrain that too often is ignored. At a time when rapacious private interests campaign to destroy government - so they can cash in on its absence - Loewenstein reports from the frontline in an insidious war.' - Paul McGeough, author of Kill Khalid and chief foreign correspondent for The Sydney Morning Herald 'The competition for the most depraved example of the predatory state capitalism of the Reagan-Thatcher neoliberal era is fierce. In this chilling study, based on careful and courageous reporting, and illuminated with perceptive analysis, Antony Loewenstein presents many competitors for the prize, while also helping us understand all too well the saying that man is a wolf to man.' - Noam Chomsky, Institute Professor at MIT and Professor of Linguistics and Philosophy, political activist and author 'Profits of Doom nails the mad idea that the drive for profits will create global wellbeing. Antony Loewenstein delivers a spine-chilling account of the post 9/11 world taken over by vulture capitalism and its political cronies. And this is what we are voting for.' - Bob Brown, former leader of the Australian Greens and director of Sea Shepherd 'Antony Loewenstein's Profits of Doom is a powerful indictment of the corporations and governments across the globe whose unquenchable thirst for resources and power threaten the stability - perhaps even the very existence - of the planet. Loewenstein is no armchair academic or cubicle journalist. The stories in the book are the product of years embedded, in military and economic warzones, with the disempowered of the world, the people from Pakistan to Papua New Guinea and beyond who have the audacity and bravery to fight back against all odds. Loewenstein's keen sense of justice is evident on every page of this book as he gives voice to the voiceless and confronts the powerful. Profits of Doom is a devastating, incisive follow-up to Naomi Klein's The Shock Doctrine.' - Jeremy Scahill, international best-selling author of Dirty Wars and Blackwater

The Battle for the Arab Spring Lin Noueihed 2012-03-16 This "lucidly written" account of the 2011 wave of revolutions "includes a wealth of astute analysis on the politics of the region, from Morocco to Oman" (Paul Hockenos, The National). Sparked by the protest of a single vegetable seller in Tunisia, the flame of revolutionary passion swept across the Arab world in what has come to be called the Arab Spring of 2011. Millions took to the streets in revolt. The governments of Tunisia, Egypt, and Libya fell, other regimes remain embattled, and no corner of the region has escaped unchanged. Here, Middle East experts Lin Noueihed and Alex Warren explain the economic and political roots of the Arab Spring and assess the road ahead. Through research, interviews, and a wealth of firsthand experience, the authors explain the unique obstacles each country faces in maintaining stability. They analyze the challenges many Arab nations face in building democratic institutions, finding consensus on political Islam, overcoming tribal divides, and satisfying an insatiable demand for jobs. In an era of change and uncertainty, this insightful guide provides the first clear glimpse of the post-revolutionary future the Arab Spring set in motion.

Tourism and Development Richard Sharpley 2014-11-17 This book explores and challenges the relationship between tourism and development and establishes a conceptual link between the discrete yet interconnected disciplines of tourism studies and development studies. This revised and expanded second edition provides not only a comprehensive theoretical foundation in development studies but also a critical analysis of contemporary themes and issues relevant to the study of tourism and its potential contribution to development. The second edition contains new chapters on the following topics: • Tourism and Poverty Reduction • Cultural Heritage, Tourism and Socio-economic Development • Tourism, Climate Change and Development • Human Rights Issues in Tourism Development • Tourism, Development and International Studies

New Engagement David Mickler 2013-06-01 Recent developments in both Africa and Australia have brought the two continents closer together. In Africa, a resources boom, greater political stability, and the creation of the new regional institutions have contributed to economic and human development, even if many challenges including conflict, poverty and exploitation remain. Australia

has commercial and political interests in Africa and, if it wants to be a significant global actor, must engage with both Africa's challenges and its growing international influence. Since coming to power in 2007, Australian Labor governments have pursued 'new engagement' with Africa after decades of relative neglect. This book, the first study of its kind, explores the key contexts for and dimensions of contemporary Australian foreign policy towards Africa. It highlights a deepening of diplomatic and political relations, a trebling of the official aid budget to Africa, and over \$50 billion of Australian-based investment in Africa's resources sector, and suggests measures to make such engagement sustainable and of mutual benefit. Contributions to the book come from academics, civil servants, diplomats and politicians.

China and the United Nations Janka Oertel 2015-03-26 This comprehensive and innovative book examines and explains the development of the relationship between China and the United Nations in the first decade of the twenty-first century. Using historical research and contemporary case studies, the book stresses the importance of domestic determinants of UN policy and concludes that the chances for international actors to significantly influence Chinese UN policy making remain very limited.

The Last Beach Orrin H. Pilkey Jr. 2014-10-22 The Last Beach is an urgent call to save the world's beaches while there is still time. The geologists Orrin H. Pilkey and J. Andrew G. Cooper sound the alarm in this frank assessment of our current relationship with beaches and their grim future if we do not change the way we understand and treat our irreplaceable shores. Combining case studies and anecdotes from around the world, they argue that many of the world's developed beaches, including some in Florida and in Spain, are virtually doomed and that we must act immediately to save imperiled beaches. After explaining beaches as dynamic ecosystems, Pilkey and Cooper assess the harm done by dense oceanfront development accompanied by the construction of massive seawalls to protect new buildings from a shoreline that encroaches as sea levels rise. They discuss the toll taken by sand mining, trash that washes up on beaches, and pollution, which has contaminated not only the water but also, surprisingly, the sand.

Acknowledging the challenge of reconciling our actions with our love of beaches, the geologists offer suggestions for reversing course, insisting that given the space, beaches can take care of themselves and provide us with multiple benefits.

Information and Communication Technologies in Tourism 2015 Iis Tussyadiah 2015-01-27 The papers presented in this volume advance the state-of-the-art research on big data and analytics, social media, electronic marketing, mobile computing and recommender systems, mobile sensors and geosocial services, augmented reality, wearable computing, smart tourism, electronic distribution for tourism and hospitality products and services, e-learning, responsive web design and management, and eTourism for development. This book covers the most significant areas contributed by prominent scholars from around the world and is suitable for both academics and practitioners who are interested in the latest developments in e-Tourism.

The Crown Estate in Scotland Great Britain: Parliament: House of Commons: Scottish Affairs Committee 2012-03-19 This report examines the Crown Estate Commissioner's management of the Crown property, rights and interests which make up the Crown Estate in Scotland. The Commissioner's operations in Scotland can be split into two categories: ancient possessions/responsibilities and modern activities relating to the buying, selling and management of property and land. The evidence identified major issues, particularly in relation to the seabed and the foreshore: including lack of accountability, lack of communication and consultation with local communities, the inappropriateness of the Commissioner's remit for its responsibilities in the marine environment, the cash leakage from local economies and other adverse impacts. There were no such problems in relation to the management of urban and rural estate. The Commissioner's responsibilities for the seabed, the foreshore and other ancient rights in Scotland should be devolved then decentralized as far as possible. Devolution to Holyrood should be conditional upon agreement between the Secretary of State for Scotland and the Scottish Government on how such a scheme of subsidiarity to local authority and local community levels

should be implemented. This report also sets out how different arrangements could be made for each of the Scottish Crown property rights and responsibilities. Further consultation should proceed on the basis of proposals set out by the Highlands and Islands local authorities, which provides a clear framework on which to base discussion.

Protected Areas, Sustainable Tourism and Neo-liberal Governance Policies Hubert Job 2020-04-28 From its late nineteenth century origins, the concept of protected areas has increased in scope and complexity. It now has to come to terms with the twenty first century world of neo-liberal politics, performance metrics and the growing and complex demands of tourism. This international collection of papers explores how this might be done, detailing the issues involved, and the value and values that protected areas have for economies, peoples and environments. Special attention is given to World Heritage Sites, tourism planning and their communities, to the growth of private protected areas, and to the health values of protected areas. Other subjects include private sector business involvement in protected areas, concessions policy experiments, and how the work of the world's largest protected area agency, the US National Park Service, is adapting to changing political and market demands, and to the challenges of sustainable development. It concludes with a searching interview with a member of UNESCO's World Heritage Committee. The chapters were originally published in a special issue in the Journal of Sustainable Tourism.

Heritage, Screen and Literary Tourism Sheela Agarwal 2017-11-15 This book examines the main issues and concepts relating to heritage, screen and literary tourism (HSLT) and provides a comprehensive understanding and evaluation of these three forms of tourism in the context of global tourism development. It analyses the demand and supply of HSLT within the frameworks provided by service-dominant logic and value creation to enable a critical perspective on how HSLT tourist experiences are created, produced and shaped. The volume explores the challenges which relate to the role of the consumer in the co-creation of the tourist experience, and the implications this has for the development, marketing, interpretation, consumption, planning and management of HSLT. It will appeal to researchers and students of heritage tourism, film and literary tourism, media-driven tourism, tourism planning and destination development and management.

Faith in Heritage Robert J Shepherd 2016-06-16 Using the example of China's Wutai Shan—recently designated both a UNESCO World Heritage site and a national park—Robert J. Shepherd analyzes Chinese applications of western notions of heritage management within a non-western framework. What does the concept of world heritage mean for a site practically unheard of outside of China, visited almost exclusively by Buddhist religious pilgrims? What does heritage preservation mean for a site whose intrinsic value isn't in its historic buildings or cultural significance, but for its sacredness within the Buddhist faith? How does a society navigate these issues, particularly one where open religious expression has only recently become acceptable? These questions and more are explored in this book, perfect for students and practitioners of heritage management looking for a new perspective.

The New Pirates Andrew Palmer 2014-08-15 Piracy is a significant global threat to international sea-borne trade - the life-blood of modern industrial economies and vital for world economic survival. The pirates of today are constantly in the world's news media, preying on private and merchant shipping from small, high-speed vessels. Andrew Palmer here provides the historical background to the new piracy, its impact on the shipping and insurance industries and also considers the role of international bodies like the UN and the International Maritime Bureau, international law and the development of advanced naval and military measures. He shows how this 'new' piracy is rooted in the geopolitics and socio-economic conditions of the late-20th century where populations live on the margins and where weak or 'failed states' can encourage criminal activity and even international terrorism. Somalia is considered to be the nest of piracy, but hotspots include not only the Red Sea region, but also the whole Indian Ocean, West Africa, Latin America, Southeast Asia and the South China Seas.

Marketing Global Justice Christine Schwöbel-Patel 2021-03-31 Marketing Global Justice is a

critical study of efforts to 'sell' global justice. The book offers a new reading of the rise of international criminal law as the dominant institutional expression of global justice, linking it to the rise of branding. The political economy analysis employed highlights that a global elite benefit from marketised global justice whilst those who tend to be the 'faces' of global injustice - particularly victims of conflict - are instrumentalised and ultimately commodified. The book is an invitation to critically consider the predominance of market values in global justice, suggesting an 'occupying' of global justice as an avenue for drawing out social values.

Public Space In Urban Asia William Siew Wai Lim 2013-12-16 Over the past few decades, rapid urbanisation has threatened to erode public space, especially in emerging economies. Market forces that prioritise profit generation are allowed to construct venues of consumption in its place. Though their physical appearance may resemble traditional public space, in reality, they are greatly restrictive and diminished in affordability, accessibility and social meaning. It is in this context that William SW Lim, chairman of Asian Urban Lab, has brought together architects, designers, historians, sociologists and urbanists from the region to discuss public space in selected Asian cities. Part One contains essays from participants from Chongqing, Hong Kong, Jakarta, Kuala Lumpur, Singapore and Taipei and observations from commentators. Several essays by William SW Lim on the subject round off the discussion in Part Two. The thoughtful essays in Public Space in Urban Asia emphasise how engaging with the present actuality of cities and public awareness of spatial justice in cities are crucial — for it is the achievement of spatial justice that will help create a greater level of happiness across societies in our increasingly urbanised world.

Creative Economies in Post-Industrial Cities Professor Myrna Margulies Breitbart 2013-08-28 There has been much written on the new creative economy, but most work focuses on the so-called 'creative class,' with lifestyle preferences that favor trendy new restaurants, mountain biking, and late night clubbing. This 'creative class,' flagship cultural destinations, and other forms of commodity-driven cultural production, now occupy a relatively uncritical place in the revitalization schemes of most cities up and down the urban hierarchy. In contrast, this book focuses on small-to medium-size post-industrial cities in the US, Canada, and Europe that are trying to redress the effects of deindustrialization and economic decline through cultural economic regeneration. It examines how culture-infused economic opportunities are being incorporated into planning in distinct ways, largely under the radar, in many working class communities and considers to what extent places rooted in an industrial past are able to envisage a different economic future for themselves. It questions whether these visions replicate strategies employed in larger cities or put forth plans that better suit the unique histories and challenges of places that remain outside the global limelight. Exploring the intersection between a cultural and sustainable economy raises issues that are central to how urban regeneration is approached and neighborhood needs and assets are understood. Case studies in this book examine spaces and planning processes that hold the possibility of addressing inequality by forging new economic and social relationships and by embarking on more inclusive and collaborative experiments in culture-based economic development. These examples often focus on building upon the assets of existing residents and broadly define creativity and talent. They also acknowledge both the economic and non-monetary value of cultural practices. This book maintains a critical edge, incorporating left critiques of mainstream creative economy theories and practices into empirical case studies that depart from standard cultural economy discourse. Structural barriers and unequal distributions of power make the search for viable urban development alternatives especially difficult for smaller post-industrial cities and risk derailing even creative grassroots initiatives. While acknowledging these obstacles, this book moves beyond critique and focuses on how the growing economy surrounding culture, the arts, and ecological design can be harnessed and transformed to best benefit such cities and improve the quality of life for its residents.

The American Civil War in British Culture Nimrod Tal 2015-07-28 This book explores the continuous British fascination with the American Civil War from the 1870s to the present.

Analysing the War's place in British political discourse, military writing, intellectual life and popular culture, it traces the sources of Britons' appeal to the American conflict and their use of its representations at home and abroad.
